Homelessness and affordable housing is a growing epidemic in Vancouver, Clark County, and across the country. We listen to those most affected and help address it with a unique community based approach. A permanent, safe home is just the beginning. Join us at our Annual Community Collaborations Breakfast to learn more about our communities, wrap around services, and how you can help!

Community Roots is honored to announce that Michael Lynch will be the guest speaker. Michael Lynch will share his vision for housing and services for people experiencing homelessness, drawing on the impactful work of the The Ed & Dollie Lynch Fund at the Community Foundation of Southwest Washington and a community approach rooted in dignity, opportunity, and long-term stability.
